FOREWORD

The figures set out in this volume have been tabulated from the returns made at the Census held on the 26th February 1931.

The statistics have been examined in Part I of the Report and anything which appears unusual in them has been discussed there.

Owing to the masses of material involved, printing errors have occurred in some of the tables. Officials and others are therefore advised to refer to the *errata*, and to correct in manuscript any mistakes shown therein to have been made in the following pages, before using the figures for any purpose.

W. H. SHOOBERT,

Superintendent of Census Operations,

Central Provinces and Berar.

NAGPUR :

TABLE I

Area, Houses and Population

1. This table shows for each district the area, the number of towns and villages, the number of occupied houses and the total urban and rural population, male and female. Similar figures are given for the States.

2. The difference between some of the areas here shown and those in the corresponding Table of 1921 is due to inter-district transfers and recalculation of areas, as explained on the title page of Table II.

3. For the purpose of column 3 (number of towns) cantonments have at this census for the first time been treated as separate towns and have not been regarded as forming part of the Municipalities which they adjoin.

4. The main statistics for tahsils or taluqs will be found in Provincial Tables I and II at the end of the volume.

5. The areas given in this Table and in Provincial Table I are subject to some revision in light of the results of the latest survey which were not available in detail when the Tables were printed. The newly calculated district areas will in most cases vary only slightly from those now shown.

TABLE II

Variation in Population since 1881

1. The table compares the population of each district and State in the Central Provinces and Berar as ascertained at the Census of 1931 with that of the five previous censuses. The figures for the latter differ from those shown in the previous Census Reports. This is due to subsequent transfers of territory from one district or State to another within the province and also to the recalculation of areas. The effect of these changes on the population of the districts or States concerned has been calculated and the figures have been adjusted accordingly.

2. The following are the districts and States of which transfers of territory have taken place :—

Between 1881 and 1891.

Mandla, Balaghat, Seoni.

Between 1891 and 1901.

Nagpur, Seoni, Chhindwara, Hoshangabad, Nimar, Betul, Mandla, Balaghat.

Between 1901 and 1911.

Saugor, Narsinghpur, Mandla, Balaghat, Hoshangabad, Nimar, Betul, Chhindwara, Chanda, Drug, Raipur, Bilaspur, Amraoti, Akola, Buldana, Yeotmal.

Between 1911 and 1921.

Damoh, Seoni, Hoshangabad, Chhindwara, Wardha, Nagpur, Bhandara, Balaghat, Raipur, Amraoti, Akola, Buldana, Yeotmal, Kanker State.

Between 1921 and 1931.

Drug, Raipur, Amraoti, Akola, Buldana, Chhuikhadan State.

3. Between 1901 and 1911 Berar and the Chhota Nagpur States (Changbhakar, Korea, Surguja, Udaipur and Jashpur) were added to the province, almost the whole of the Sambalpur district and the Oriya States (Bamra, Rairakhol, Sonpur, Patna and Kalahandi) were transferred to Bengal and a portion of Chanda was transferred to Madras.

Note.—A reference is invited to the note on page 16 regarding Saugor Cantonment and Mandla Municipality.

TABLE IV

Towns classified by population with variation since 1881

1. The population of Cantonments has been shown separately from that of the towns adjoining them.

2. Amraoti and Amraoti Camp have, as at previous censuses, been shown separately because each is a Municipality. If the two were treated as a single unit Amraoti Town would fall in class II. The Municipalities of Ellichpur and Ellichpur Camp have also been shown separately as before.

3. The figures of Railway settlements not lying within Municipal limits but clearly forming part of the place concerned have been included with those of the Municipalities of Jubbulpore, Bilaspur and Etawah. The population of the Gun Carriage Factory area has also been added to that of Jubbulpore. The number of those actually living within Municipal limits is :—

Jubbulpore	..	97,468
Bilaspur	..	25,735
Etawah	..	7,430

4. Travellers enumerated in encampments, trains, etc., and shown in column 22 of Table III have, in this Table and Table V, been included in the population of any town adjoining which the place of enumeration is situated.

5. As the Table is intended to show the purely urban population, the figures for towns have not been adjusted so as to allow for changes of area since the Census of 1921, and except for 1931 the class totals are not the totals of the figures given below them but represent the whole urban population recorded at each census. The population in former decades of places not previously classed as towns has been entered in brackets when known for purposes of comparison.

6. Ten places treated as towns at the last census have now been omitted as they have entirely ceased to possess urban characteristics. Eight new towns have been included in the Table, either because they have become Municipalities during the decade or on account of their growing commercial importance. Full details of all these places are given in the statement below showing the effect of these adjustments upon the size of the urban population.

Statement showing the net variation in population owing to reclassification of urban areas during the decade 1921-31.

TABLE V

Towns arranged territorially with Population by Religion

1. In this table as in Table IV travellers enumerated in encampments, trains, etc., and shown in column 22 of Table III have been included in the population of any town adjoining which the place of enumeration is situated.

2. Below are given separate figures for the Military and Civil population of each cantonment. The third column shows only the figures obtained from the census of the strictly military area, and those for the civil population may contain a certain number properly to be reckoned military.

Serial No.	Name of Cantonment.		Population.	
			Military.	Civil.
1	2		3	4
1	Saugor	1,305	9,040
2	Jubbulpore	7,794	12,271
3	Pachmarhi	137	4,562
4	Kamptee	1,855	3,699

*In all tables the strictly military population of Saugor (988 males and 317 females) has been included in the figures of the Municipality instead of in those of the Cantonment. The mistake was detected after the tables were printed. See fly sheet of Provincial Table I.

TABLE VI

Birthplace

1. This table is divided into two parts :—

Part A contains the statistics of birthplace for the province as a whole, for each district and for all the Central Provinces States combined.

Part B contains similar information for cities.

2. The phrase "Within British Dominions" occurring in column 1 has been taken to mean "within the British Empire and Mandated Territories," but the figures of those born in Iraq have been included with those against "Outside British Dominions".

TABLE VII

Age, Sex and Civil Condition

1. This Table is divided into three parts. Part A shows the distribution for the Province as a whole of the total population and of each religion by age, sex and civil condition. Part B shows the distribution in Districts and States of the total population and of the main religions by age, sex and civil condition, but in this part the age statistics have been given in less detail than in the Provincial Summary. Part C gives similar details for cities.

2. Detailed information for the age periods not shown in Parts B and C, can be obtained from the manuscript Compilation Registers which have been preserved.

3. The method of grouping ages is that recommended by the Actuary to the Government of India, and age groups have been smoothed in order to secure greater accuracy, according to the system laid down in the Imperial Census Code.

TABLE VIII.

Civil condition by age for selected castes.

This table repeats the information given in Table VII in respect of civil condition with this difference that, whereas in that table, the population is distributed by age and religion, it is here arranged according to caste or tribe. Moreover, in Table VII, the whole population is dealt with, while this table refers only to selected castes and tribes; the minor castes and tribes have been left out of account altogether and even those selected have been taken only for the localities where they are specially numerous. The arrangement of the corresponding table of 1921 has been generally followed. To save space, figures have been given not for each district separately, but for groups of districts the local conditions of which may be presumed to be fairly uniform. These natural divisions for the purpose of this and Tables XI (Occupation by selected castes) and XIV (Literacy by selected castes) are constituted as follows :--

Nerbudda Valley Division	.. Saugor, Damoh, Jubbulpore, Narsinghpur, Hoshangabad, Nimar and Makrai State.
Maratha Plain Division	.. Nagpur, Wardha, Bhandara, Chanda, Balaghat, Amraoti, Akola, Buldana and Yeotmal.
Plateau Division.	.. Betul, Chhindwara, Seoni and Mandla.
Chhattisgarh Plain Division	.. Raipur, Bilaspur, Drug, Bastar, Kanker, Nandgaon, Kawardha, Khairagarh, Raigarh, Sarangarh, Sakti and Chhuikhadan.
Chhota Nagpur States	.. Changbhakar, Korea, Surguja, Udaipur and Jashpur.

In the 1921 Table Balaghat was included in the Plateau Division, and not in the Maratha Plain Division as now.

The caste figures in this table agree with those in Table XVII.

TABLE IX

Infirmities

1. This table is divided into two parts. Part I shows the distribution of persons afflicted according to age, and Part II their distribution according to Districts and States.

2. Persons who were returned as suffering from more than one infirmity have been shown as suffering from each. Consequently the totals entered under "Total afflicted" in columns 2, 3 and 4 do not agree with the totals for each separate infirmity, since those three columns give the number of the infirm and columns 5 to 16 give the number of actual infirmities.

The following statement shows the number of persons afflicted with more than one infirmity :—

No.	Combination of infirmities.	Persons afflicted.	Males.	Females.
1	Insanity and Deaf-muteness	151	86	65
2	Insanity and Blindness	30	12	18
3	Insanity and Leprosy	10	6	4
4	Deaf-muteness and Blindness	153	76	77
5	Deaf-muteness and Leprosy	24	17	7
6	Blindness and Leprosy	86	43	43
	Total	454	240	214

The above figures include 2 males suffering from three infirmities, *viz.*, Insanity, Deaf-muteness and Blindness.

TABLE X

Occupation or means of livelihood

The scheme of occupations presented in this table is that approved by the Government of India. In the following groups there were no returns in the Central Provinces and Berar and they have therefore not been shown in the Table :—

- 8. Cultivators of jhum, taungya and shifting areas.
- 9. Cinchona cultivation.
- 31. Exploitation of lead, silver and zinc.
- 33. Exploitation of tin and wolfram.
- 36. Exploitation of petroleum.
- 38. Exploitation of mica.
- 39. Exploitation of precious and semi-precious stones.
- 79. Manufacturers of opium.
- 80. Manufacturers of ganja.
- 101. Persons concerned with aerodromes and aeroplanes.
- 155. Navy.

2. Under sub-order (a) in place of the groups of 1921 for "Income from rent of agricultural land", and "Ordinary cultivators",—the groups for "Non-cultivating proprietors taking rent in money or kind", "Cultivating owners", and "Tenant cultivators" have been substituted. "Farm servants" and "Field labourers" appear under "Agricultural labourers", or any other head more appropriate to the specific form of occupation. Comparison with the figures of 1921 in these groups should therefore be made with caution. It may be explained that the instructions were to class as "cultivating owners" all those personally cultivating land over which they have permanent rights of occupation, and under "Cultivating tenants" all those who take land on temporary contract or lease. The figures are examined in Part I of the Report.

TABLE XI

Occupation by Caste, Tribe or Race.

1. This table is important as indicating the extent to which traditional occupations are being abandoned.

2. The information given in the corresponding Table XXI of 1921 has been modified, but sub-classes of occupations have been divided under the same minor heads as then.

3. The number of persons in each caste agrees with that shown in Table XVII except in respect of caste returns by Indian Christians. The latter in this table are not included in the figures of the castes to which they originally belonged.

TABLE XIII*

Literacy by Religion and Age.

1. This Table, like Table VII, is divided into three parts. Part A shows the extent of literacy in the Province as a whole amongst the total population and for each religion returned. Part B gives details for the districts for the total district population and for each main religion, and Part C gives similar details for Cities.

2. Columns 6, 7 and 8 of the Table show the number of persons literate in their vernacular. The number of persons literate in English has also been shown. Some of these have returned English as their only language, while others are also literate in a vernacular and have accordingly been entered twice—once in the column referring to the vernacular, and again in the column "Literate in English". The latter columns must, therefore, be left out of account in calculating the total number of literate persons. Returns of literacy for children under five years of age have been ignored.

3. An Appendix showing the number of those literate in Urdu and Hindi and the number of those educated up to the Primary Certificate Standard is printed at the end of the Table.

4. The following statement shows literacy among Indian Christians (other than Oraons). Details by sect are not available :—

TABLE XIV

Literacy by selected castes.

1. This table, like Table VIII, deals not with the whole population, but with certain selected castes in certain districts where they are specially numerous.

2. The figures do not agree with Table VIII as the population dealt with is of seven years and over : the caste strength can be verified by adding the figures in age group 0—6 of Table VIII.

TABLE XV.—Part I

Language

In part I of this table, the languages have been arranged according to their family affinity, the classification having been based on Sir George Grierson's revised scheme. The arrangement of columns is as follows :—

A.—Vernaculars of India—

(i) Aryan sub-family of Indo-European family	..	Columns 5 to 67.
(ii) Dravidian family	..	Columns 68 to 103.
(iii) Austro-Asiatic sub-family of Austric family—		
Munda branch	..	Columns 104 to 118.
(iv) Unclassed languages—		
(a) Gipsy	..	Columns 119 to 121
(b) Others	..	Columns 122 to 124
B.—Vernaculars of Asiatic countries beyond India	..	Columns 125 to 127
C.—European languages	..	Columns 128 to 133

2. Hindi has, at this census, been divided into Western and Eastern Hindi. Hindustani, which includes all language returns of Urdu, Hindustani and Hindi unspecified, except in the Mandla and Jubbulpore districts and Changbhakar state, appears as a dialect of Western Hindi. Eastern Hindi includes Chhattisgarhi, Awadhi, Bagheli and other minor dialects detailed in the appendix. According to the figures of the Linguistic survey 99 per cent of the population of Mandla and Jubbulpore and 95 per cent of the population of Changbhakar speaks the Bagheli dialect of Eastern Hindi, but as no special instructions were issued for recording dialects, Hindi (Unspecified) was generally returned as the mother-tongue in those units. Against them, therefore, the proportion of Hindi speakers reported at the Linguistic survey to use the Bagheli dialect has been shown under Eastern Hindi. It may also be assumed that the number of Eastern Hindi speakers is considerably greater than that actually returned in the units in Chhattisgarh.

3. Sanskrit, Lahnda (Western Punjabi), Konkani, Khandesi and languages of the Pahari group have, at this census, been treated as independent languages of the Aryan sub-family and shown in column 65.

4. The appendix at the end of the table has been made considerably fuller than that of the last census and all returns of languages having no local importance, together with minor dialects, sub-dialects and forms of languages have been shown therein.

* The number of persons speaking these languages comes to 4,230 which differs from the total figure given in column 101 on page 345 of this Table by 5. This difference is due to the fact that five persons in Raigarh State returned their mother-tongue as "Dravidian". These figures have been included in the total shown in the Table but could not be classified and shown here.

TABLE XV—PART II

Bi-lingualism

This part of Table XV appears for the first time at the 1931 Census. It shows figures of those who daily or very commonly use some language other than their mother-tongue. Details have been given only for the following ten important vernaculars of the province:—

- (1) Hindustani.
- (2) Marathi.
- (3) Bhili.
- (4) Oriya.
- (5) Gondi.
- (6) Telugu.
- (7) Kurukh or Oraon.
- (8) Kherwari.
- (9) Korku.
- (10) Kharia.

Figures of Western and Eastern Hindi and Rajasthani have been amalgamated to economise space, as these three languages are closely allied. They appear together under the heading "Hindustani".

2. Gujarati is an important mother-tongue only in Akola and Nimar districts of this Province. Figures of bi-lingualism in respect of this language are considerable in the areas noted below :—

Area of bi-lingualism.	Number speaking mother-tongue Gujarati.	Percentage on population.	Number speaking			
			Subsidiary languages.			
			Hindu-stani.	Percent-age.	Marathi.	Percent-age.
Akola, Akot, Balapur and Murtizapur taluqs.	8,987	1.5	691	7.6	4,330	48.2
Burhanpur tahsil ..	7,873	5.4	1,904	24.2	158	2
Khandwa tahsil ..	2,609	1.1	1,831	70.2

3. Statistics have been shown against areas of bi-lingualism. In some cases it has been possible to amalgamate homogeneous districts or tracts. In others separate figures have been given for tahsils and zamindaris. The details of the table are illustrated in the linguistic map published with Part I of the Report.

4. There were no special instructions issued for recording cases of tri-lingualism or poly-lingualism at the census. The numbers of those who did return two subsidiary languages are given below :—

Locality.				Persons.	Males.	Females.
Jubbulpore Division	230	197	33
Nerbudda Division	188	156	32
Nagpur Division	689	523	166
Chhattisgarh Division	5	5	..
Berar	209	184	25
C. P. States

More than two subsidiary languages were returned by 9 men and 1 woman only in the Jubbulpore District. Detailed figures have been preserved in a manuscript register.

5. Against serial No. 47 figures for the Chandrapur-Padampur estate have been shown. The people of the Padampur tract of the estate are nearly all Oriya speaking but separate figures for other languages were not available for this tract. Comparative figures for the principal languages are given below :—

	1 Padampur.	2 Chandrapur.
Hindustani	.. 2,623	62,660
Oriya	.. 20,962	884

TABLE XVI

Religion

1. The few persons who returned themselves as Brahmos by religion have been included with the Hindu totals in columns 14, 15 and 16. Foot-notes show the districts in which they were enumerated.

2. Jains and Buddhists returned as Hindus are not included in the Hindu total but have been shown separately, Jains in columns 23, 24 and 25 and Buddhists in the foot-notes to columns 21 and 22.

3. In accordance with the orders contained in Government of India, Home Department, Resolution No. F. 45-43-31-Public, dated the 30th April 1931, the table showing the territorial distribution of the Christian population by race and sect has been abandoned and the figures of Christians have been classified as follows :—

Sect.	Persons.	Males.	Females.
Roman Catholics	55,964	28,763	27,201
Romo Syrians	<i>Nil.</i>	<i>Nil.</i>	<i>Nil.</i>
Other Syrians	14	9	5
Others	46,307	23,768	22,539

In "Others" are included members of the Anglican Communion and of all sects found in the Province which are not shown separately above.

4. No Indefinite Beliefs were returned at the Census.

TABLE XVII

Race, Tribe or Caste

1. This table shows for the Province and for each district or State in which they were returned the total population and the religion of those castes or tribes which are of considerable importance in their own locality. If a district is not mentioned under the name of a caste or tribe, it means that no members of that caste or tribe were returned there. Where various religions are professed by a caste or tribe separate figures have been given for each.

2. Audheliyas, Chauhans, Dewars and Kamars are shown for the Chhattisgarh Division and Central Provinces States only. It is exceptional for these four castes or tribes to be found elsewhere.

3. The statistics of Indian Christians, apart from those shown in this table as returning their original caste or tribe, will be found in Tables VIII, XI and XIV.

TABLE XVIII

Variation of population of selected tribes

1. The Table, which has been prepared at this Census for the first time, is presented in two parts (i) for British districts with an appendix showing figures by tahsils and taluqs and (ii) for the Central Provinces States. In Part A plus and minus figures, as far as they are available have been shown for the period 1881 to 1931. In part B they are shown for 1891 to 1931. For the appendix, only figures for 1921 and 1931 are forthcoming.

2. Figures for the first three decades 1881—1901 are not available for the districts of Berar as they have undergone changes in composition from time to time. The variations have therefore been shown only on the Divisional totals.

3. The Drug district was formed from portions of Bilaspur and Raipur after 1901, and so the statistics for those two districts, in the period 1881 to 1901 include the figures for Drug which it has been impossible to separate.

4. Details for religion are not forthcoming prior to 1911 and variations of total figures only can be shown for the earlier decades. Figures were not tabulated by sex in 1891; thus males and females are shown together under that year.

5. Separate figures for the Chhota Nagpur States were not abstracted before 1911. This accounts for blanks and marked variations against them.

6. Blanks under any year indicate either that figures are not available or that there was a nil return. The entries in columns 8 to 12 show when the latter is the case.

7. Figures for the thirty principal primitive tribes of the Province have been included. Agarias do not appear because the statistics abstracted were unreliable as they were confused with Agharias both at Enumeration and Tabulation. The following tribes found in the Chhota Nagpur States were also omitted either because they have not appeared in previous Census Reports or because they are of small numerical importance:—Khond, Rautia, Birhul, Pando Kharia and one or two others which are mentioned in part I of the report. 1931 figures for Kharias can be found in Table XVII.

TABLE XIX

European and Allied Races and Anglo-Indians by Race and Age

1. The totals in columns 2, 3 and 4 are those for both Parts of the Table. In the 1921 Report these columns gave the figures for European and Allied Races only.

2. Only one Armenian was returned in the Province and is included in the figures against Saugor for females in the age period 14—16 under British Subjects.

PROVINCIAL TABLE I

Area and Population of Tahsils, Cities and Large Towns

1. In this Table area and population of the Tahsils of the Central Provinces, the Taluks of Berar, and of two cities and twenty-three large towns are shown. The figures for Zamindaris are given separately under the Tahsil to which they belong. The figures of the cities and towns are shown above the Tahsil to which they belong and are not included in the Tahsil figures. Jubbulpore, Saugor and Kamptee Cantonments have been treated as separate towns.

2. Figures for Amraoti Camp and Ellichpur Camp in this table are included in those of the taluks in which they lie, but in Provincial Table II they have been added to those of Amraoti Town and Ellichpur Town. The inconsistency was unavoidable owing to the system of sorting Christian slips.

3. Statistics for the Central Provinces States have not been shown here because they are readily available in Tables I, II, and XX.

4. The population of the strictly military area of Saugor Cantonment (1,305 persons) has been included in the figure for Saugor Town instead of in that for the Cantonment. The correct figures are given below :—

		Persons.	Males.	Females.
Saugor Town	..	38,517	19,735	18,782
Saugor Cantonment	..	10,345	5,571	4,774

PROVINCIAL TABLE II

Population of Districts, Tahsils, Cities and large Towns by Religion and Literacy.

1. In this Table the population of the Tahsils and States of the Central Provinces, of the Taluks of Berar, of the two cities and of 20 large towns is shown by religion and literacy. Zoroastrians, Jews and Buddhists have been grouped together under the head "Others". Hindus have been shown in three classes—Brahmins, Depressed classes and Other Hindus.

2. The figures for Zamindari areas are given separately under the tahsils to which they belong. The figures for the cities and towns are shown above the tahsil in which they lie and are not included in the tahsil figures.

3. The age groups for the number of the total population literate have not been smoothed as in Imperial Tables VII and XIII and present the original crude figures collected at the Census.

4. Only the figures of those castes regarded as untouchable in each unit have been included in columns 10 and 11. Such castes vary from district to district. Lists of those held to be untouchable throughout the Province or the administrative divisions mentioned and throughout the States are given below. Other castes included in depressed classes in any particular unit are named in the Remarks column.

Castes held to be untouchable throughout the Central Provinces British districts and Berar :—

- (a) 1. Mehra or Mahar (Somvansi—Manepwar).
2. Basor or Burud.
3. Mehtar or Bhangi.
4. Dom.
5. Chamar or Chambhar.
6. Satnami.
7. Mochi.
8. Ganda.
9. Mang.

Other castes held to be untouchable throughout the Jubbulpore and Nerbudda Divisions :—

- (a) 1. Kori.
2. Mala.
- (a) 3. Balahi.

Other castes held to be untouchable throughout the Nagpur and Berar Divisions :—

1. Madgi.
2. Balahi.
- (b) 3. Pardhan.
4. Ghasia.
5. Katia.
6. Panka.
7. Khatik.
- (b) 8. Kaikari.
9. Dohor.

Other castes held to be untouchable throughout the Chhattisgarh Division :—

1. Ghasia.
2. Katia.
3. Panka.
4. Dewar.

Caste held to be untouchable throughout the Central Provinces States :—

1. Mehtar.

The names of the other castes regarded as untouchable in each separate State appear at the end of the Table.

5. Statistics of literacy by caste (Table XIV) were as at the last Census tabulated only for units in which the caste concerned is important. Columns 12 and 13 therefore contain figures for the principal depressed castes only—and the literates among other untouchable castes of small numerical importance in a unit are included in columns 8 and 9. The error resulting is inconsiderable.

(a) Except in the Harda and Sohagpur tahsils of Hoshangabad district where these three castes are not regarded as untouchable.

(b) Except in Balaghat district where these two castes are not regarded as untouchable.
